Presentation of the Sustainable Pet Project

Intuito: Integrated action between the groups PET UFRA;

Objective: Efficient selective collection

Schedule of activities: To be defined.

Invitation for integration directed at UFRA PET groups.

2.1 SUGGESTIONS

1. First intervention: Action together with all PET groups in a striking way;

Period of action: During the week of the freshman;

Actions:

- Solid waste collection on a sectoral basis: Each PET Group is responsible for collecting solid waste, differentiating waste from waste dumps and residues found on the floor from Monday March 5th, all collected material will be stored until the day of "ACTION ";
- Mini lectures emphasizing the reason for the action, highlighting the importance of recycling and sustainability;
- Storage location: to be defined.

2. Mapping: To map the UFRA of areas of effective selective collection points and inert points, calculate the volume of waste produced at each collection point (warehouse, feed mill, pruning waste, among others);
Responsible: Grupo PET PESCA;

3. Request of selective collection container;

4. Recyclable waste bins;

5. Residues for external community: seeking plastic, metal cooperatives so that they come to collect waste on a given day;

6. Distribution of glasses in events: aim of preservation and sustainable;

7. "Management does not do the Pet does": reporting the difficulty with management issues of the university, any and all action developed would have public character;

8. Present the SUS PET Project for the management of UFRA.

PILOT PLAN FOR INTEGRATION BETWEEN PET GROUPS:

- **PET Group return date:** March 07 (Wednesday).
